

SOUTH SUBURBAN ARCHAEOLOGICAL SOCIETY
PRESENTS A *FREE* ILLUSTRATED LECTURE

Clare Tolmie, Ph.D.
(*Illinois State Archaeological Survey*)

People, Places and Prehistory: The Environment(s) of Prehistoric Northern Illinois

People interact with their environment in multiple ways. By reconstructing the environment over time, archaeologists can better understand site patterns -- how humans interacted with and exploited the resources around them.

Dr. Clare Tolmie will outline the datasets used by archaeologists to reconstruct past environments. This will let her describe how the landscape has changed over time in northeastern Illinois and how people occupied the landscape at different time periods.

Dr. Tolmie is Senior Research Archaeologist at ISAS (Illinois State Archaeological Survey).
